Our largest owner has a joint venture partner in Chicago who is out of the country and they have not yet been able to make contact. They need verbal approval from the JV partner and then can execute quickly here in LA. So we have no precise ETA for when that might happen. If they reach the partner, things will move quickly, but until then they are stuck. As soon as I hear anything, I'll let you know. Thanks to all for trying to make this happen!
